Absent:

1. Project

Progress

- Daven: Zero progress made this week as it's the first week back since winter holidays. Still aiming to figure out which map api to use and how to integrate into the site.
- Ali: No progress made this week, first meeting on friday.
 - David : outside learning material

Blockers + Surprises .

- Daven: For me, getting back into all my classes starting at once while also trying to figure out where I left off in the project has caused a rocky start.
- Ali: My old code is confusing, I need to look at making it more readable.
 - David: Stack is new to me and code base is a little confusing

2. Learning Activity

Daven: nothing

Ali: nothing

David: outside material

3. Plan

Task for this week:

- Daven: nothing
 - Have a meeting with a client, have a separate meeting afterwards to talk about our plan.
- David : meet with client and with group to get back on track.

Learning activities proposed for this week:

1. Daven: submit progress report to client, confirm with client team is on the right track,

and narrow down maps api.

Goals for the next milestone:

1. Daven: Have a map load on the site page with location markers.
2. Ali: Data validation and security bug fixing
3. David : admin page
