## Semester 2 Plan

Woo Woo Network Group 2

## Features to implement

- Fix the booking system and configure the payment system, which was implemented with stripe.
- Fix general look of search and tag features implemented in previous milestones, adding custom tags which the user can add to their account.
- Have a figma design draft theme approved for the admin page.
- Develop admin page so that the project sponsor can manage users of the service
- Have a map on the search page that displays healers locations to users
